The Indian and Postoffice Appropriation Bills Discussed—A Reward to be Offered for Geronimo's scalp—Etc., Etc.

SENATE.

THE POSTOFFICE APPROPRIATION BILL.
WASHINGTON, May 3.—After the transaction of unimportant business the senate took up the postoffice appropriation bill, and Mr. Vest proceeded to speak. On the amendment appropriating \$80,000 for the transportation of foreign mails he maintained that its provisions would prove destructive to American merchantmen. It was now proposed to change the existing statutes which permit competition, and substitutes in its place a declaration that none but American steamships shall carry mails. Today, he said, we have but two routes upon which there are more than two lines of steamships, one from New York to the east and from New York to Havana. No competition could come except on these two lines. He cited statistics showing that in recent years we have paid four times as much to American steamships as to those of other countries for the transportation of foreign mails, yet our merchant marine and our navy

HAD STEADILY DIMINISHED AWAY.
Since 1866 congress had appropriated \$355,000,000 for the support of the navy and today we have a lot of old wooden hulks that would not last one-half hour before one single armed vessel of a second class naval power. Chili had two ships, built in England, which could reduce to a total wreck every seaport in the United States without any trouble. Italy could send one vessel that could bombard our cities and destroy our navy and it would only be an amusement for the Italians. Mr. McPherson said England today subsidized a mail line to South America to the extent of \$450,000. He asked Mr. Vest how he would get trade of South America against such odds.

Mr. Vest said he would repeal our infamous navigation laws. No other civilized nation had such laws. He would also

REFORM THE TARIFF
and place it on a revenue basis so as not to handicap one man for the advantage of another. He believed in an honest mail service but this amendment violated sound principle. So wedded are Republicans to a protection tariff that they were unwilling to break even one link in the chain of protection; but they were compelled to acknowledge that after a long season of protection, a change was found to be indispensable.

Mr. Vest read a printed notice from a so-called "workman" whose name was not printed. The alleged workman, among other things said that all congressmen favoring low tariff were not friends of the workman. Mr. Vest said he would forfeit his salary in the senate if the alleged "workman" did not turn out to be a man who wore

A THREE STORY SILK HAT,
diamond studs and French kid boots, no doubt, too that "workman" boarded at the Fifth avenue hotel and his board was paid by manufacturers and steamship builders of this country who wanted the high protective tariff consumed.

Mr. Vest wished Mr. Vest had explained his idea of a "subsidy." He did not think Mr. Vest's position on the bill a considered one. He did not see how Mr. Vest could reconcile his opposition to the subsidy, with his introduction of a bill to guarantee the payment of \$37,500,000 to build "Eads" ship railway on foreign soil. Mr. Vest inquired whether the United States were to remain in the future as in the past. Able speeches on the subject of

FREE SHIPS AND FREE TRADE
were all right, but our commerce with South and Central America was stationary. Must we be content to see all other nations of the earth supplying markets of those countries while we listened to speeches? He said that even the Italian nation, born but yesterday, had closer and better commercial relations with the nations south of the United States. The question of our shipping and foreign trade relations was one different from that of local manufacturers. Shipping represented to other portions of the earth the power and prestige of a nation. Our people believed, he said, that the trade of the countries of this continent

BELONGED TO US
and could be had with little effort. It was no political question. Mr. Beck said he desired to explain the incident referred to by Mr. Hale on Friday, relating to fifty-two bags of American mail for Rio de Janeiro, said to have been dumped on the dock at Pernambuco. Mr. Beck said he had been told by a well informed officer of the postoffice department, that the mail referred to was not sent by any ocean "tramp," as had been alleged, but by a ship of the Red Cross line of mail steamers, which made regular trips from New York to Pernambuco, and which had been regularly employed by the United States postoffice department for the past ten years. Mails for Rio de Janeiro had been sent regularly by that line to Pernambuco, there to connect with the Brazilian mail steamer for their destination. The debate then closed for the day, and the senate went into executive session, after which it adjourned.

FOR AN HONEST BALLOT BOX.
Senator Hoar from the committee on privileges and elections today reported favorably the bill creating a commission, to be appointed by the president, to select a design for a ballot box and counting device which shall be used in all congressional elections.

HOUSE.
THE INDIAN APPROPRIATION BILL.
WASHINGTON, May 3.—Mr. Wellborn, of Texas, submitted a conference report on the Indian appropriation bill, and it was adopted by

A \$25,000 REWARD FOR GERONIMO.
Delegate Benn, of Arizona, introduced a bill authorizing the president to offer a reward of \$25,000 for the killing or capture of Geronimo.

AFTER THE LAND GRANTS.
Mr. Anderson, of Kansas, moved to suspend the rules and pass the bill providing for the adjustment of the land grant made by the United States to aid

in the construction of railroads in Kansas and for forfeiture of unsecured lands, which was agreed to.

CUTTING DOWN EXPENSES.
Mr. Morrison today introduced in the house a bill prepared by the treasury department, designed to give effect to the act cutting off the commissions of the internal revenue collectors in taxes collected on distilled spirits, which act the supreme court recently held did not accomplish the purpose intended.

A FRIEND OF SILVER.
Mr. Breckenridge, of Arkansas, today introduced a resolution in the house to give silver certificates full legal tender character, and providing for the issuing certificates of the denominations of one, two and five dollars.

An Anti-Sparks Decision.
SAN FRANCISCO, May 3.—United States District Judge Sabin today quashed the indictments recently found against Charles E. Beach, et al., charging them with subornation of perjury in connection with extensive timber land locations in Humboldt county, on the ground that the indictments had been found on illegal testimony. The lands in question are very valuable.

Tons of Hard Money.
WASHINGTON, May 3.—The issue of standard silver dollars from the mint during the week ending May 1st, was \$381,990. The issue for the corresponding period last year was \$189,999. The shipments of fractional silver coin during the month of April amounted to \$394,837.

Confirmations.
WASHINGTON, May 3.—W. L. Cabel, to be marshal of the northern district of Texas. Jos. J. York, of Texas, to be collector of the port at Brazos de Santiago, Texas. Jos. Magoffin, of El Paso, Texas, to be collector of the port at Paso del Norte, Texas.

The Indian Appropriation.
WASHINGTON, D. C., May 3.—The adjutant general has received the following despatch from General Miles, dated Benson, Arizona, April 20: "Confirmed reports from Calabasas and Nogales state that three persons were killed about ten miles north of the line. Very serious depredations have been committed south of the boundary in Sonora. Many persons have been killed and others driven out, and are coming up on the Sonora railroad to Arizona territory. Both Mexican and United States troops have been actively pursuing. One Mexican and one white man have been taken by Indians and have been killed. As fast as possible troops are being placed where they will be likely to intercept hostiles should they attempt to move north. The balance will keep close to Geronimo's camp if possible, wherever they may go."

THE NECESSITY

FOR THE SPECIALISTS.

DR. WAGNER & CO.

We offer no apology for devoting so much time and attention to this much-neglected class of diseases, believing that no condition of humanity is so wretched to merit the sympathy and best services of the profession to which we belong, as many are innocent sufferers, and that the physician who devotes himself to relieving the afflicted and saving them from worse than death, is no less a philanthropist and a benefactor to his race than the surgeon or physician who by close application excels in any other branch of his profession. And, for the sake of humanity, the day is dawning when the false philanthropy that condemned the victims of folly or crime, like the lepers under the Jewish law, to die unaided for, has passed away.

YOUNG MEN

Who may be suffering from the effects of youthful follies or indiscretions will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. Wagner will guarantee to forfeit \$500 for every case of seminal weakness or private disease of any kind and character which he undertakes to and fails to cure.

MIDDLE-AGED MEN

There are many at the age of 30 to 40 who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient can not account for. On examining the urinary deposits aropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin, milky hue, again changing to a dark and torpid appearance. There are many causes of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. W. will guarantee a perfect cure in all cases, and a healthy restoration of the genito-urinary organs.
